

SmarTone Cloud

Enables Enterprises' Digital Transformation

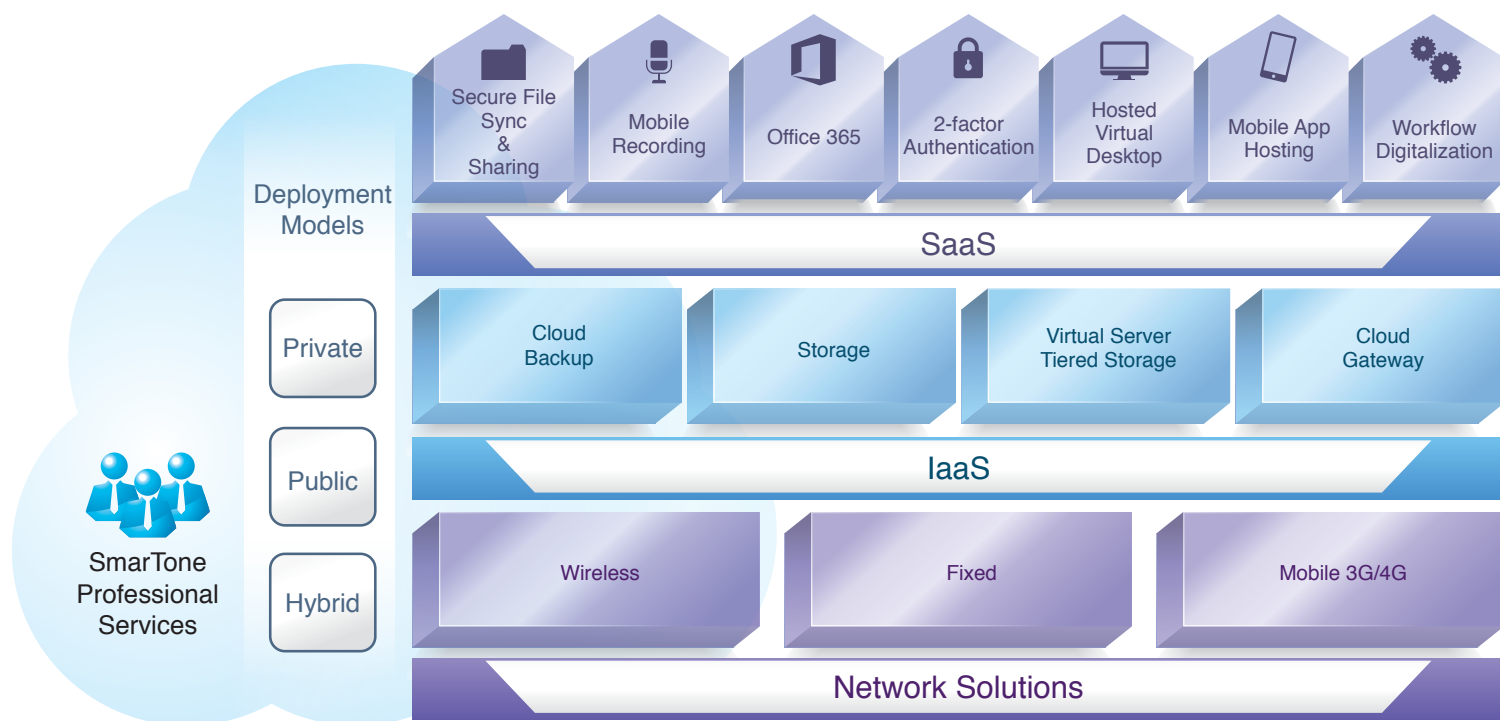

Mobility is the key element defining the workforce of today and tomorrow. To meet the ever-changing preference of the organisations and their workforces, traditional working models and IT systems need to be up-to-date. Cloud and mobile services are two main driving forces in companies' digital transformation journeys.

Trend of Everything-as-a-Services

A recent study done by Frost & Sullivan¹ reveals the trend of enterprises' transitions towards an Everything-as-a-Services (XAAS) model. The adoption of a XAAS model is expected to be challenging for the most enterprises. Frost & Sullivan also recommends the industry best practices that facilitate enterprises' decision-making process including developing a clear Cloud-First Mobile-First strategy, ensuring mobile application compatibility, gaining a comprehensive of SLAs and ensuring vendor capability and viability.

Why SmarTone as Your Cloud-First Mobile-First Partner?

To enhance your business agility with the reliable, secure and end-to-end solutions, SmarTone helps you to develop and deploy your Cloud-First Mobile-First strategy based on industry best practices.
