

Secured Corporate Mobile Service Combo

Comprehensively protects your mobile voice and data

With the increasing network speed and advanced applications of smartphones, our daily works are mobilised with the convenience to access company data and contact business partners anytime, anywhere. Mobiles become a much more valuable target for cybercriminals. Mobile related threats are getting common and continue to grow that not only affect the device itself, but also put your business at risk.

Top mobile-related threats faced by mobile users

- Malicious Mobile App
- Unsecure WiFi Network
- Junk or Fraud Calls
- Bad URLs or Attachments

20%

organisations suffered a mobile security breach

48%

were unsure if mobile security incidents had occurred
